of Upper Lachine
have been determined

No 36

Camp Mysore
15th April 1884

From

Major J. R. McCullagh R.E
Deputy Supdt Survey of India
In charge Mysore Topo: Survey

To

The Secretary
to the Dewan of Mysore

Sir,

I have the honor to invite the consideration of the Dewan to the circumstance that the Municipal Boundaries of the City of Mysore have not as far as I can ascertain been as yet determined and that in consequence the Surveyors engaged on the large Scale Survey of the City are working more or less in the dark as to the limits to be taken up.

2. The Survey has been in progress for some weeks but it will be impossible to complete it or to submit a map for publication in an incomplete State, which it will manifestly be until the City or Municipal limits are shown thereon

3. I may observe that the cost of the work will probably be enhanced for want of definite information on this point, as in the absence thereof all the Survey can do is to allow a liberal margin to the operations so as to fully take in all the ground that may be eventually decided upon as coming

within

Maps of the Division of Mysore

2492-5 / 26 — 922 / Sh. Orders

With reference to this Office No. 86/57 of 5th. May 1882 to the Dy/Com. of Mysore and that Officers communication to the Dy/Supdt Mysore Topo-Survey regarding the limits of the Mysore Municipality, it is observed that the municipal boundaries are not at present satisfactorily defined. As observed by the Dy/Supdt, Topo: Survey, a few points situated on the road leading from Mysore afford no indication whatever of how the boundary line runs between those points. There appears to be no

demarcation with the
exception of a few stone
pillars at the points
above named. Something
over 17 sq miles of
country have now been
surveyed, ~~but~~ on the
scale of 12 inch to the
mile, but before the
map can be published
it is desirable to
mark upon it the
exact boundary line
of the Mysore City on
all sides. Under such
circumstances, the Dy
Comr. is requested in
consultation with the
Exc: Engineer (to whom
a rough copy of the
Topo. survey maps have
been furnished by the D
P. W Secty) to settle definitely
the line of boundary, advantage being taken of the
present opportunity to bring within municipal limits

addl lands:
~~it~~ may, on Sanitary
& other grounds, be
~~desir~~ desirable. The
boundary thus settled
will be ~~indicated~~ indicated upon
the rough map already
referred to — This should
of course be done with
the concurrence of
the Board & after careful
inspection of the ground
with the aid of the
Topo: Map — A descrip
tive statement of
the boundary as thus
fixed should ~~also~~ be
~~submitted~~ together with
a copy of the Topo: map
with the boundary as
settled clearly marked
thereupon — Early
information upon this
subject is required &
it is therefore requested
that there may be no
delay in furnishing
it — On receipt thereof
the Govt will notify the

new boundaries with
the descriptive Statement
and ask the Topo: Survey
Depm. to publish the
map shewing the boundary
as settled.

by 1917

Secy

To,
1 Dy W Secy with ref. papers
2 Asst Comr. Mysore
3. Ex Engr, Mysore
4. Dy Superintendent in charge
of Mysore Topographical Survey

Proposed Municipal Boundary - 31-7-84.

Go over Gobbe Cuttay Bridge pass the take on Guchi Matta, and go — the one near 89th mile stone between Channapapy Urs & Loorecary Ursoo's Garden and Join the Nachanhully road near 7th furlong stone, take on oil mongers houses, go along Dodakeray feeder & turn to right at the bend near Kolagary wells. (2) go along the ones to the Gambling trees, then along the one to Kanagowdencoppal, from there — along the upper one to Kookanhully Channel then along the Channel to the distillery, then along the road to Kookanhally, then along the water spread of the Tank to Pudwar hulli

From Padwarhulli Join Kookanhully feeder near Narasa & Boragowda's field, go along the Danada One up to Jowar Row Cuttay feeder, go along the feeder — till you come to the foot-path to Nargonhulli, take the footpath & go down along Kundy Halla leaving it to your left, go through the Railway Bridge, go along Poornial's Channel

Channel & Join Jodr Tengina mara
Bridge, go along the Eedga road, enter
the opposite field of Kempanah, then
along the broad Tavari through Gurnah's
field, pass between the 2 Bassri trees
in front, go through Malia & Hanoomantas
fields to Cole's Garden road, Cross the road
& get into Seeranga patam Road to the
north of Hanoomantarayen Gudi, opposite
the Oni in 5th furlong, go through the
Oni to old Subbarayamy Mantapam in
Chandapal road, from thence through
the 3 fields to the Goni trees Tope on the
road to Dasanoor Kiray, then across the
Cingarpet Field & Shaik Jamal and
ally Sahibs Flower Gardens into Oni,
then streight on through the Field to
Nawab's Bowry, then Crossing the road
at 2½ furlong go through fields &
Join the Karanjy Tank feeder at the
head of the Oni leading to Katamanballi
Cross the feeder Keep to the ramparts
till you Come to the Bussy tree near
the Katri bands in Gatoob Sahibs fields,
then go along the Tavari to Ookal Pollia,
then along the road to Coonabarhalli

along the road round the old race
Course get on Gobli cutting Bund.
